Mimosa Posy

DESIGN & STYLING — INVESTMENT GUIDE

INTRODUCTION

Every celebration we created is entirely bespoke, shaped around what matters most to each couple. As priorities, scale and details differ from one celebration to another, no two investment look quite the same.

This guide offers a glimpse into our past work across different levels of investment.

UNDERSTANDING INVESTMENT

The same investment can take many different forms. How it is allocated depends on the scale of the celebration, the venue and, most importantly, what each couple chooses to prioritize.

“It’s less about how much is spent, and more about where we choose to spend it.”

01
Guest Count

More guests mean more tables, florals, stationery elements and overall styling volume.

02
Venue

The existing space influence how much design intervention and production is needed to create the desired atmosphere.

03
Florals

Flower varieties, seasonality, volume and the scale of arrangement can significantly shape the investment,

04
Custom Production

Bespoke structures, bars. Backdrops, signage and specially fabricated elements vary according to each design.

05
Styling & Details

Candles, vases, decorative objects and other in-house styling elements are layered differently depending on the creative direction and priorities.

06
Production

The complexity of installation, manpower, logistics and production requirements varied from one celebration to another.

Creative direction and Atmosphere design is inherent to every Mimosa Posy project
